Ranma ZINE VOL. 01

FEATURING RAAC and FRIENDS

FOREWORD

It's amazing to think that nearly 40 years after the fact, Rumiko Takahashi's martial-arts comedy is not only still alive and kicking in the hearts of fans, but finding new life in fandom thanks to it's new Netflix adaptation. For older fans like me, Ranma 1/2 was not just a cute comedy we enjoyed; it was a gateway to Takahashi's manga, an introduction to some of our favorite voice actors—and for some fans, it was a life-changing series that really made them think,

"Hey...what if I COULD change my gender?"

It was also a huge inspiration on fandom creatively. For years, it's been a spark that has influenced countless pieces of fanart, fanfiction, and cosplay. This zine is an example of our continued love for these timeless characters, and Takahashi's works. Maybe it, in turn, will inspire you, too!

SUMMER '98

Thank you to all the artists who participated in this zine!

As a long time Ranma 1/2 fan, I've always wanted to host one of these.

It definitely won't be the last.
I had planned to also have a piece in this zine, in addition to the cover. However, I couldn't get one done in time due to how crazy the year has been.

I really hope you enjoyed the zine with all the wonderful artists!

Dedicated to all the Ranma 1/2 fans!

Love, Otacat

We had a last minute addition, so the last two pages were done by:
